

Better And Better
@Rick Lang

Chorus

Our love keeps getting better and better
We're still happy as ever when we're together
A little bit better with each passing day
The good Lord He planned it that way
Yes the good Lord He planned it that way.

V1

When I think back we sure had us a time
Just two young lovers with stars in our eyes
We had it good but could never have guessed
That our best years still lie ahead

Chorus

My eyes still light up when you walk through that door
Your kisses taste sweeter than ever before
Just like the bluebird you hear in the spring
You are the song my heart sings

V2

We talk things out more than ever before
Both older and wiser well that is for sure
There is no challenge that we'll ever face
Our love can't overtake

Chorus

Our love keeps getting better and better
We're still happy as ever like birds of a feather
A little bit better with each passing day
The good Lord He planned it that way
Yes the good Lord He planned it that way.
