

Lame Little Shepherd Boy
@Wanda Dalton/Rick Lang

V1

Their watch they would keep, tending their sheep
Under the bright starry sky
When an Angel appeared with good news to share
A Savior is born on this night
Salvation for all of mankind

V2

They walked to the place where Sweet Jesus lay
To see with their own eyes
But there'd be no joy, for this lame Shepard boy
The others left him behind,
All alone with tears in his eyes

Chorus

Lame little shepherd boy, how your heart yearned
To watch the birth of the Savior unfold
Crippled, forsaken, kept you from partaking
in the grand celebration below
But that night you too would rejoice
Your ears would hear Gods own voice
Lame little shepherd boy

V3

Boy fell asleep, and there in the dream
His two legs and feet God had healed
Ran to like the wind to Bethlehem
His excitement he could not conceal

V4

When the shepherds returned
Amazed they would learn
The young boy was crippled no more
God heard his cries, reached down from the skies
His two legs and feet were restored
