

**On The Tips Of Angels Wings**  
@Becky Buller/Rick Lang

Chorus

I'll will fly away on the tips of angels wings  
High above clouds where the joy bells ring  
When Jesus calls my name I'm gonna shout and sing  
As I rise up to heaven on the tips of angels wings

V1

Won't be here much longer in this bed  
Cause I can see them hover overhead  
Don't you worry bout me, don't you weep and moan  
Come the morning I'll be going home

V2

Momma always said that they would come  
When my time allotted here was done  
I wonder is she watching, waiting there for me  
To celebrate throughout eternity

V3

The light is growing brighter all around  
In the distance I hear Gabriel's trumpet sound  
When my spirit leaves my body, I shall be set free  
At long last I'll feel the sweetest peace
