One Good Deed
@Rick Lang/Daryl Mosley

Chorus
One good leads to another go lend a hand to your sisters and brothers
Give it a try and you'll soon discover
One good deed leads to another
One good deed comes back around, lifts the soul up when he is down
Take a gray sky and give it some color
One good deed leads another

V1
When I was young my parents raised me right
Taught me manners how to be to be polite
Do at least one good deed each day
Help to make this world a better place

V2
I tried hard to do what they said
On my path see kindness spread
Helping someone to make it through
It will always come back to you

V3
This road of life is an uphill climb
And you can break down any time
Sometimes just a word or smile
Will lighten their load for a little while

V4
Share what you have with those in need
There's others have less than you and me
When someone's having a real bad day
Go cheer them up in your own special way
