

Our Day Will Come  
@Kristen Bearfield/Rick Lang

V1

The day will come we'll feel no pain  
No sorrow there on earth remains  
Let's spread our angel wings and fly  
To our new home in the sky

V3

When our time down here is done  
W'll meet the Father and the Son  
He'll take my hand and say "we'll done"  
Yes one day our day will come

Chorus

Walls of jasper streets of gold  
Our Lord high up there on His throne  
A joy my heart has never known  
Yes one day our day will come  
Yes one day our day will come

V 2

In that heaven that awaits  
Tears won't fall hearts won't break  
Count the days just can't wait  
to see my blessed Saviors face
