

In A Bluegrass Song
@Rick Lang/Troy Engle

V1

If you're looking for something that's still real
Or hear a singer singing something you can feel
Make your hair stand on its end, and makes you sing along
You can bet your bottom dollar it's a Bluegrass song

Chorus

In a Bluegrass song...it's high and it's lonesome
In a Bluegrass sing....guitars will play that G run
A sound that is older than the hills
Like the cry of the night owls and the whippoorwills
'Bout broken hearts and love that's gone wrong
That's what you'll hear.... in a Bluegrass song

V2

Those words cut deep into your soul
They tell you a story that happened long ago
Songs about faith, family and friends
Might a heard it a thousand times, you'll want to hear it again

Chorus

In a Bluegrass song...it's high and it's lonesome
In a Bluegrass song....guitars will play that G run
A sound that is older than the hills
Like the cry of night owls and the whippoorwills
'Bout broken hearts and love that's gone wrong
It can make you cry or make you want to sing along
That's what you'll hear.... in a Bluegrass song
