

Lowest Of Lows, Highest Of Highs
@Rick Lang/Troy Engle

Chorus

From the lowest of lows to the highest of highs
I've see it all in the course of my life
From down in the valley to the clouds in the sky
Lowest of lows highest of highs

V2

I been on the bottom too many times to count
I've seen the devil try to count me out
I'd dust myself off get up again
I may have lost today but tomorrow I might win

V2

Sitting on the mountain looking down at where you been
Took all you had to get there but it was worth it in the end
Can't stay there forever, so just enjoy the ride
Theres another valley another hill to climb

Bridge

On the road your walking there's always ups and downs
All you gotta do keep the faith, and your feet on solid ground
