

Granddaddy's Trunk  
@David Pugh/Rick Lang

V1

In 1897 granddaddy started life  
At an early age learned to read and write  
Always helping others, he had a heart of gold  
Dreamed of driving Model T's when he was just ten years old

V2

Just a lad granddad learned to work with his hands  
Found some old boards in the barn and came up with a plan  
Designed a lovely wooden trunk with paper and pen  
One sturdy and strong to make his dad proud of him

Chorus

That old wooden trunk is with us to this day  
Filled with treasures Granddaddy stored away  
Get the urge to go through it every now and then  
Makes me smile for a while when I think of him

V3

Went into the attic just the other day  
Found granddaddy's trunk, wiped the cobwebs away  
Opened up the latches took a peek inside  
As I went through the treasures tears welled in my eyes

V4

Black and white of he and grandma on their wedding day  
Prince Albert tobacco cans, gold pocket watch and chain  
Granddads old army clothes, dog tags from the war  
Medal of Honor he won on foreign shores
