

You spoke to my heart

V1:

It's that time again
when I'm feeling so dismayed
Asking God about
unanswered prayers I've prayed

Somehow I muster up
the strength to carry on
But the load that I carry
Makes me feel I'm not that strong

Chorus:

But,
When I speak your name
The walls begin to fall
I feel you ease my pain
You're the healer of it all

Thru the hurt I have faced
You've extended your grace

Your tender love is what sets you apart
When I spoke your name
You spoke to my heart

V2

And I've wondered how
Some people make it through
But now I understand
Since I've put my trust in you

I know that faith
is a substance of the unseen
And the mighty name of Jesus
It can change everything

Bridge

Just the simple name of Jesus
Can calm the raging seas
So I know that he can work for you
And supply all your needs
