

Win Either Way Cordell Dow / Dave Fowler

I met him last Sunday, in the last row of chairs

I could tell he was older near the last of his years

He said, "sit down a minute, before we all go

Listen, There's something I think you should know

Verse 2

I met with a doctor, then another or two

They said there was not a lot left they could do

And Monday there something they're wanting to try

It looks like my days might be in short supply

-----

He misses his Sarah, hopes to see her real soon

or to see a grand-kids birthday complete with balloons

We know now that in life.... we have no say

But he let me know, and said with a smile, ..he wins either way

vers 3

He said between us, we trust things above

We need to keep closer the ones that we love

but now we're assured in our faith come what may

.....We win either way
