

Words To Say....

Dave Fowler / Corky Dow

The sign said "Rough Road Ahead"
They must have heard the words you said
you took me by surprise and left me speechless
I didn't know what to say,
So I just drove away
Then I found some lines to try, But that's my weakness

chorus

And by the time I pulled over they were gone
gone, gone, long gone
the words I'd found to say, just up and flew away
by the time I pulled over they were gone

When I drove in back home
With my perfect words still gone
I had no plan, and all I had were worries
the way through this ordeal
was to tell you how I feel
I took your hand and just said, "Babe I'm sorry."

chorus

And by the time I pulled over they were gone
gone, gone, long gone
the words I'd found to say, just up and flew away
by the time I pulled over they were gone
Gone
Gone

You see by the time I'd pulled over they were gone
gone, gone, long gone
the words I'D FOUND to say, just up and flew away
by the time I pulled over they were gone
by the time I pulled over they were gone
Gone
Long Gone
